الاسلام الایمان الاحسان

Hadees talks summarize Religion into one convo. Jibreel meet as person to prophet and told him to ask 4 Qs to his followers. What is Islam (5 pillars), Iman (Allah, prophets, books, angels), whats Ihsan (worship Allah with sincerity that he sees you.) → whats Judgment (Allah knows it).

حدیث جبریل : (اسلام، ایمان، احسان)

Framework of Action

Intention + Action + For sake of ...? =

- Intention → we Muslims, Allah present, ideological perspective, Niyat important

3) Khilafat vs Democracy in perspective of Global village.

4) Concept of Ummat-e-Wast

→ 1) Religion Islam starts from Adam. When He claimed to be prophet he took divine guidance from Allah.

→ Survival is with Authority. After prophet system ← God / prophet
Khilafat system came because we need survival.

→ Authority is with system.

→ Adam came with system (verbal)

• After him other prophets came with system whether written or verbal.

• Hazrat Ibrahim problem was with Namrood (system) His issue was with system associated with idols.

System: When we say all supreme authority / rules / regulations associated with Allah.

Two Systems

Khilafat
(Rule according to Shariah X authority belongs to Allah, of he knows how to implement Islam and Shariah so people are happy with system)

Islamic state. system has supreme authority of Allah - parliamental system should have Allah Religion can't be separated from Politics.

Ottoman: its slogan was Islam.

Political ⇒ prophets, what is Islamic state, Khilafat, we have to reinforce system of Shariah and Khilafat.

1928: movement of Khilafat
After 1928, Islamic state all over world become separate

Islamic state = Khilafat
we can separate both on basics of
1) Supreme authority belongs to Allah & Prophet (written system given by Allah)
2) All constitutions based on شریعت
current scenario may we replace current situation استحسان with some other. (Instead cutting hands of thief just take his all property) Replace punishment with other of same intensity.
