Question: Date

As we know that when Quran was compiled in the same era Hadith was compiled can you imagine that the language of hadith is mixed with language of Quran or vice versa cuz era is same people are same, language are same so can we make it different? (specially orientalist raised these types of questions which need more details).
As a muslim we must know that the language of hadith is entirely different from language of Quran. either the compilation of era is same. when you will read Quran and Hadith u can easily differentiate the languages.
Although hadith and Quran are from lugah Qadeema but still there's difference in their languages.

(2). Quran itself confirms and approved all revealed books and demands to believe in them.
" He has sent down upon you [O Muhammad], the Book in truth, confirming what was before it. and He revealed the Torah and the Gospel." [3,3]
here the ayah reveales that Quran is actualy confirming two more revealed books (Torah and Gospel). So it means Quran is the series of revealed books and the last serial of revealed knowledge" is Quran. that is Quran is also confirming " that source is same. Torah and Gospel also came from Allah. But it doesn't mean that Torah is present book for jews and Gospel is the present book for christans. Now we aren't saying bible is Gospel bcz Gospel is not deviated from it's originality.

(3). Religion and Science: Is there difference b/w science and religion? yes there's difference.

when we talk about science it alway talks about the physical phenomena, physical changings, things we can grasp from our five senses.

but when we talk about religion, does religion always talks about physical sciences? No, but it do talk about metaphysical as well. But there's some similarities and contrast between science and Religion.

Comparison ← both talks about physical science

science	religion
↓ Physical science	↓ Physical science

Contrast

science	religion
↓ doesn't talk about meta-physical science.	↓ talks about metaphysical science

Historical approach on Religion and science:-

lets talk about 13th century. In that time religion was dominant all over the world. Obiviously in europe, there were christans and in asia there were Muslims. It means on all over the world there was flag of religion. But when we talked about the europian history (christans) so we are always talking about religion, there's no second voice against religion can be raised. i.e In 14 century Gallelio make a statement "sun is not revolving around earth but earth is revolving around sun." which was against of bible statement that "sun is revolving around earth" he was killed coz he was raising statement against religion or u can say church authority. So that was the dominance.

Scanned with CamScanner

Date

When there's dominance of religion everywhere so, there must be some sort of resistance. The resistance are in two forms 1. protestant 2. scientific revolution

what protestant think: religion is their but we must use our intellect to interpret our daily matters of material world. so for this reason they need religion like when they want to get marry they go to church. but for other matters there's no need of religion like they just throw the religion and live ur life. Now a days some Muslims like protastant has religion but on friday to friday like they wore shalwar kameez and offer jummah. and also when they want to get marry they need a molvi coz they don't know the khutbah - nikkah. So they must need religious source to perform this activity. But other days and nights you can pass upto your wishes & desires but sometimes for some special needs you must need religion.

Scientific Revolution say ↑ religion no, never ever, they think that in religion there's no intellect, we cannot raise the questions we cannot criticise, even sometimes in religion there's some knowledge beyond intellect Allah (swt) always said "Use Your Intellect to understand your creator."

So of scientific revolution the people denied completely religion the phenomena, the matter we can see is present, things which we cannot see isn't present. They replace metaphysical with physical entities. for example, Scientific revolutionist replace God, they said there's no God, they replace God with universe. after why universe coz besides great authority of God

Scanned with CamScanner

Date

we always talks about nature, climate, universe. and they also dont believe in soul. They replace soul with physical body. That's the reason from 13 century uptill now maximum intellectuals they did their best jobs in medical field cuz they have foars to secure the bodies. for instance. you are ill (some unconcious state, u cant sleep) so some intellectued will send u to psychatarist or to psychologist. They will say that there's some inbalance in ur body and u need these pills. (They replace the soul with body treatement) Then the scientific revoluntarist replace completely hare after and prefer material woold. why? cuz who has seen the hereafter there's no physical appearance so there's no hereafter. protestants and scientific revolution (specially) has impacts on all our generations. fror example whenever you ask som maag or babag living in villages even what do u want your son to become they will definately say doctor ar an enjineer. It means that this revolution prevales or dominate to all our minds cuz we allways think about that natural or material sciences are more important than metaphysical sciences. why are u enjineer cuz u r intellectual, u scored good marks while u dont have any relation with religious institute. Even very dull child who cant study they used to send him to madrassa. scientific revolunarist replace Spirtuality with psychology. as we also know religion talks about physical & metaphysical both but science only talks about physical. So they replace humanities with material sciences.

Quran contains some "scientific Truths" which prove; It is the book of Allah.

heres an example of creation of child in Quran:

" And certainly did We create man from an extract of clay. Then we placed him as a sperm-drop in a firm lodging. Then We made the sperm-drop into a clinging lump, and We made the clot into a lamp (of flesh) and, We made (from) the lump, bones, and we covered the bones with flesh; then We developed him into another creation. So blessed is Allah, the best of creators." (23:12)

The whole process of creation of child is discribed in QURAN. when QURAN was revealed there were no ultrasonic facilities at that time. but now it is.

Either the truth mentioned in QURAN is proved by science or not it remains the Truth.

Quran has been made easy to Recite and Memorize.

" And indeed, we have made Quran easy to understand and remember, then is there any that will remember". (54:32)

The stories of Holy Quran are True And not Fantasies.

" We recite to you some of the news of Mosses And Pharaoh in truth." (28:3).

" Verily! This is the true narrative" (3:62)

First Revealation of Holy Quran.

Its easy to know and Muhammad kept on reading the ayah in cave of hirah when muhammad was in place of isolated it means you have many many vast explores yourself, explore universe, explore the realities behind many incidents so its actually the golden time.

"Read in the name of your lord, who created, created man from a clot. Read and your Lord is most bontiful. (He who taught) the use of pen taught man which he knew not."

Last Revealation of Quran:.

Majority of scholors in Islam are of opinion that the last Aayah of Holy Quran; Surah Maidah Aayah 3,

"This day have I perfected your religion for you, completed my favour opon you, and choosen for you Islam as your religion".

So remember this is the time when we complete your دین (religion). The path where u can walk in, the path which u can adapt to become sucessful now all the guidance is completed by Muhammad (PBUH) so, this is the clear declaration that this religion is actually completed. No more prophets, nothing more is needed to give the message.

Basic Ethics In Islam

(A jouiney from Vicegerent to Nfs-e- Mutmayinna)

Ethical interaction with society:

* **Relationship with yourself:** We are vicegerent nominated by All (SWT) when he created the very first human being Adam. Relationship with yourself means how much sincere or loyal you are with yourselves. In QURAN, "And in; within your selves (some sign). So do you not notice." (Surah Adh-Dhariyan - 21)

Date

Is it important to regconize ourselves. In hadith :
"Who recognized himself, recognize Lord."
we can recognized ourselves by analyzing our habits. If our habits are taking you to your lord it means we are working deeds in righteousness and viceversa. When we are interested in our recognition, so we can negate our bad habbits and make difference b/w right and wrong. and also we can change ourselves its a lame excuse that whatever i am, now i cant change its in my nature'. In Quran Allah says:-
"Verily Allah will not change condition of people as long as they do not change their state themselves." Surah Al-Ra'd (13:11)

Hadith:

"No doubt! Allah neither sees your faces nor your actions, rather, He checks your intentions and Hearts. (Bukhari Muslim)
Allah analyze your inner intentions rather than apparantly actions.

Releationship with Allah:-

In Quran described certain parameters or criteria of relationship with Allah (SWT) for example.
"And be not like those who forgot Allah, so he made them forget their own souls; these if is that are the transgressors." (59:1
Donot forget urselves, cuz as u forgot urselves u will forgot Allah. cuz self recognization is recognization of Allah. self recognization lead us to recognization of Allah. Analyze urselve in solitude, analyze ur habits, ur changings in sorroundings, it will certainly lead u to the symbols of Allah. But for this

So, how much we would love Allah in Quran:

"The believers are stronger in their love for Allah." (2:165)

The symbol of believer is that they love very much Allah. and that love of Allah is greater than their love for other things. They love Allah for extreme level. When you love Allah, then your love for all other relationships are less. It means that to whom we love, we obey him. So when we love allah, we cant love other things that makes Allah angry. and if we love the things that makes Allah angry then we aren't loving Allah to that extreme level.

Hadith:

"Whoever loves for Allah's sake, hates for Allah's sake, gives for Allah's sake and withholds for Allah's sake has a perfect faith".

(Abu Dawood)

"There are seven whom Allah will shade with his shade on the Day when there is no shade except His; a just ruler, a youth who grew up in worship of his Lord, a man whose heart is attached to masjid/mosques, two men who love each other only for Allah's sake, meeting and parting for that love a man who resists the call of a woman of noble birth and beauty to commit fornication, but he refuses and says 'I fear Allah', a man who gives charity secretly so that his left hand doesnot know what his right hand has given and a man whose eyes flood with tears whenever he remembers Allah in private". (Al-Bukhari)

If you love allah it must be shown through your daily actions.

Relationship with prophet (PBUH):

"Certainly God conferred a great favour upon believers when he raised among them a messenger from among themselves, recieting them the book and wisdom; although before they were surely in menifest error". (3:164)

hadith: Narated By Anas: The prophet said: "None of you will have faith till he loves me more than his father, his children and all mankind." (Al-Bukhari).

Narrated By Anas:

A man asked the prophet about the Hour (i.e day of judgement) saying, "When will the Hour be?" The prophet said, "What have you prepared for it?" The man said, "Nothing; except that I love Allah and his Apostle". The prophet said, "you will be with those whom you love". We had never been so glad as we were on hearing that saying of prophet (i.e "You will be with those whom you love.")

Relationship with teachers:

"Do not make the calling of messenger among you as your calling one of another." (surah An-Noor, aayah 63)

Whenever we discussed an Aayah, there are two audiance

1. direct audience (2) In-direct audience.

People in the timeline of Prophet (PBUH) — we and people uptill Qayamah

So the direct audience of this Ayah is related to the remote area of Makkah. These people are known as Badri people as they are from remote areas so they are not civilized and due to lack of civilization they dont know the ethics of conversation. They called prophet like 'Ay', (o) and in Arabic its ya. Allah stated in Quran that dont say 'ya', say 'ya Ayuha'.

Scanned with CamScanner

Date

This type of conversation is prohibbited. The direct principle is related to Badri people and the direct message is for prophet (PBUH).

Now lets see the indirect messege:-

"I am sent to you all as the Teacher". (hadith).

So the indirect message is taken for the teacher.

So we cannot say a teacher as O, Ayy, Aryy, Oyy not only the words but tone is also very important.

So the tone and style of conversation is also mentioned in Quran.

Our tone while talking to teacher must be formal.

Hadith:

Abu Hurairah, may Allah be pleased with him, said, I heard the Messenger of Allah, say, The world is cursed, that which is in it is cursed, except thikr (Zikr). Allah (remembering Allah) and what follows it or a learned person, or a student. (Ibn Maajah)

A student, teacher and who does thikr is blessed.

Relationship with Parants:-

"Thy lord hath decreed that ye worship none but him and ye be kind to your parants" (17:23)

whenever Allah talks about himself then secondly he talks about parants. So this hierarchy shows that parants are very important. you have to be kind with your parents.

"if one or both of them live to their old age in your life time, you shall not say to them any word of contempt nor repel them and you shall address them in kind words. (17:23)

Scanned with CamScanner

Date

the second part of aayah mentioned that when specially when they are in old age you must give them respect why because they declined in their age and they are just like kids.

Hadith: "Dutiful and good natured children who cast one loving and affectionate look at their parents, reciere from the Almighty blessing equilant to approved Hajj" On authority of Asma'a bint Abu-Bakr (-Muslim). Al- Siddiq (RA) who said; "My mother came to Medina from Makkah to see me, while she was still an unbeliever. She had come to demand something from me. I inquired with the prophet (S.A.W): 'My mother has come to see me and she is expecting something from me. May I oblige her?' He said: 'Yes, be kind to your mother" (Bukhari and muslim)

Relation with Siblings:-

"Those who join that which Allah has commanded to be joined (i.e they are good to their relatives and do not cut the bond of kinship") Surat Al-Ra'd (Verse 21)

What does this aayab means it means who really wanted to join their relationship with Allah, how they show their relationship with Allah, by the behaividur with the siblings or with relatives so they are good with their relatives.

Hadith:

Qudsi hadith: "I am the most Merciful, I created Ar-rahim and I cut out a name for it from my name, so whoever keeps good ties with it, I will keep good ties with him, and whoever cuts it off, I will cut him and finish him off".

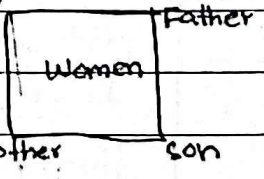
Scanned with CamScanner

Date

Ar-rahim (الرحم) whoever keeps good with the relations of rahim I will be good with him and whoever cuts off, I will cut him off and finish him off.
Ar-rahim relations are siblings.
When a man came to Holy prophet (S.A.W) and said, "O messenger of Allah, I have relatives with whoom I kept good relations, but they cut off relations with me, I forgive them, but they oppress me, I do good to them, but they treat badly, should I get even with them (treat them as bad as they treat me?
The prophet said, "No, if u do so all the relations will be cut off this way. On the contrary, be generas and keep in touch with them, you will always has support from Allah as long as you stay this way". (Bukhari)
Now, this is a test for you, even your siblings are not good with you, you have to be good with 1em. Even if they are against you and you have to be with them.

Relation with spouse :-

"Men are the maintainers of women, because Allah has made some of them to excel others..." (4:34)
husband will look after of Three responsibilities :



① physical responsibilities → food, clothes, house } basic needs.
② academic responsibilities
means if wife wants to study, the finance is the responsibility of husband.
③ spiritual responsibity. that husband must know what is the relationship his wife has with Allah.

The husband must provide: such circumstances which enhance the Qurbat of Allah to his wife.

"... And women have rights similar to the rights of men in a just manner, and the men have a degree (of advantage) over them..." (2:228)

In this Aayah [men has a degree over them] means that men are more responsible, they have more responsibilities they are more care taker.

"... And one his signs is that He created mates for you from yourselves that you may find rest in them and He put between you love and compassion; most surely there are signs in this for a people who reflect." (30:21)

Wife is extract from husband, they both are not separated they are one, now there problems are not different. and second that He put love and compassion b/w them. Allah put Barakah in their relationship. ..

Hadith:- The prophet of Allah stated: 'The more one becomes faithful the more one experiences kindness to his spouse'. (Bukhari) you have to be faithful, kind to your wife.

The prophet of Allah stated: 'Whoever is more well behaved is more complete in his faith. The best among you is one who does good to his family!" (Muslim)

while we are doing opposite. while outside we are so well behaved even with strangers while in our houses we are so worst we talked to them like non-civilized people talked to Muhammad. (S.A.W).

Relation with Shopkeeper:-

"Do not devour one another's property wrongfully, nor throw it before the judges in order to devour a portion of others property sinfully and knowingly!" (Al-Baqarah- 188)

(1). Basically it means relationship of giving and taking. (Buying / purchasing, and giving). Whenever u are dealing with the property so be careful so you can not do any wrongful activity during selling or buying of property. for example, if you are wrong don't go for judges with wrong evidences against truth. Obviously, when judge will see some evidences he might order in your turn. and you may get some property (so its all sin) dont do wrong activities neither go to judges to earn wrong property. You must own property with legal ways.

(2). When you are selling something you must tell the buyer about everything about that thing or property you must have mutual consent, they must know every minor detail about property there must be crystal clear dealing.

"Do not devour another's property wrongfully — unless it be by trade based on mutual constent". (Al-Nisa: 29)

(3). Dont take another's property through illegal way but if both are trading on mutual consent or on mutual interest.

Hadith: Narated Abdullah bin Umar: A person came to the prophet and told him that he was always betrayed in purchasing. The prophet told him to say at time of purchasing, "No cheating." (Bukhari).

A man came to prophet and said " he cannot recognized people while purchasing (they always cheated upon him). he was always betrayed in purchasing Prophet (SAW) said at time of purchasing simply told 'em' No cheating'. you can remind them not to cheat. (Its all u can do) rest is upto shopkeeper whether then he do cheats or not. but u can remind him.

Prophet Muhammad (PBUH) said: "The seller and the buyer have right to keep or return goods as long as they have not parted or till they part; and if both parties spoke the truth and described the defects and qualities (of goods), they they would be blessed in their transaction, and if they told lies or hid something, then blessings of their transaction would be lost." (Bukhari)

1 principle:- (Time of position). forexp, you are selling a cell phone so you must tell everything to buyer. You must tell the qualities and defects of the goods to the buyer.

2 principle: you can return the goods if u are at one place. for example, you saw something and u gave money to the seller and you buy that thing and left the shop. Then u saw some defect in that thing and now u came back and asked the seller to return it back, now you dont have right to return it cuz you have given time on shop while purchasing.

Now if the shopkeeper has given some guarantee of two or three days or of 24 hours so now you can change or return your goods. It means there's a mutual consent.

Scanned with CamScanner

Date

3. principle When you mentioned all the defects in goods its mean you are getting blessing in that transaction otherwise apparantly you may have some profit but you dont get barakah. you may get profit from wsong way and you may loss by other way.

prophet Muhammad (SAW) said: "May Allah's mercy be on him who is lenient in his buying, selling, and in demanding back his money (or debts)." (Bukhari, Tirmidhi)

you have sell things in leniency. like if you buy a thing of 1000 and you are selling it of 500 so its not linency. There must be leniency in buying and selling.

Prophet Muhammad (PbUH) said: "He who buys food grain shouldn't sell it untill he has taken possession of it." [Muslim]

When u posses something then u have authority to sell it. u cannot sell things of other person without his permission.

old aged people, you can give him honour in different ways like physically or financially. So when you would be old age or when you grow up so Allah will appoint a person to give you honour. so in this way you can get the barakah of your deeds in this world.

Abu Musa Al-Ash'ari narrated that prophet (PBUH) said, "It is out of reverence to Allah to respect the white-headed (aged) Muslim." (Abu Dawud)

Allah will not be angry on person who respects old aged person.

Anas bin Malik narrated that the prophet (PBUH) said, "By Him in whose power my soul is, Allah doesn't bestow His mercy except on a merciful one." They (the companion) said "All of us are merciful." The prophet (PBUH) replied, "Not only that each of you has mercy upon the other, but to have mercy also upon all people."

- concept of old age Benefits in Era of Hazrat Umer (RA):

Once Hazrat Umar saw an old aged person who can't not able to carry a burden on his back and he was doing labour. Hazrat Umer said, what happened where is your son? where is your child? So why are you doing this burden task in this age so that person replied: I have no son, and there's no one to take care of me. So Hazrat Umer mentioned the old aged benefits.

Once, Huwayyisah and Muhayyisah, the son of Mas'ud ibn ka'b, and 'Abdur-Rehman ibn Sahl came to the prophet to discuss a matter with Him. 'Abdur-

Relation with class and JOB mates

It is very important to know because it deals with people who are all around us, They are not actually from our born relationships, not our relatives, or people who are cumplsory to give them respect In Quran, in following Ayah Allah tells us about the ethics how to deal with them:

"Worship Allah and associate nothing with Him and to parents do good, and to relatives, orphans, the needy, the near neighbour, the neighbour farther away, the companion at your side, the traveller, and those whom your right hands possess. Indeed, Allah does not like those who are self-deluding and boastful." (Surah-An-Nisa-36)

The first and foremost diety is [1] Allah which is on all above others, then [2] parants, then [3] relatives, then [4] orphans, then [5] needy, your [6] neighbour, then your [7] neighbour farther away, [8] companion at your side, [9] travellor, [10] those whom your right hand possess.

In this ayah, Allah has discussed the hierarchy, hierarchy of relationships, We also have hierarchy in Ibaadaat. like farz are more imp than nafal namaz.

Similarly, there is farz and nafl in relationships too.

"Companions at your side" whoever is sharing a bench with you, sitting besides you, who is your clasc mate, who is your job mate so how can you deal with them. In Quran, it is also mentioned that you have to be very careful while dealing with them.

Hadith:

By Allah, he is not a believer! By Allah, he is not a believer! By, Allah, he is not a believer! prophet (S.AW) said: it was asked, "who is that, o Messenger of Allah?" Prophet Muhammad (PBUH) said, "One whose neighbour doesnot feel safe from his evil."

Neighbour also means like if you are travelling the person sitting next to you is also your neighbour.

Relation with Non-Muslims

How should we treate with them who are non-muslims?

"(Muslims) Do not revile (The idols) which they invoke besides Allah, lest in their ignorance, they should spitefully revile Allah." (Al-An'am) (6 : 108).

Do not say bad for the idol of non-muslim because they are in them because of their ignorance. Otherwise they will say bad to your God (Allah)! If you want to discuss on theology or ideology then you have to be very carefull and talk on common branch.

we cannot compelled someone to be muslim. There's no compulsion in case of religion. But if ~~the~~ someone is muslim but he is n't giving zakaat or etc so we can ask him to do so through law.

"Allah forbits you not, with regard to those who fight you not for Faith nor drive you out of your homes, from dealing kindly and justly with them; for Allah loveth those who are just." (60:8)

you can do bad to them who derived you from their houses, you should just because Allah(SWT) loves just.

Hadith:- The prophet of Mercy said: Beware! History Of Islam :-

Date

Why prophets arrived in this universe? Why Muhammad (PBUH) was not enough? Why there are many many prophets? There are two reasons ① Anthropological dimension,
② religious dimensions.

Anthropological dimension: (study of human being) so from that perspective we'll see that human always need a deity or entity to surrender. You can see the history from the stones, different symbols, different pictures that people used to make a god or goddess. or any supreme deity to whom they can surrender. Its the tendency of human nature that he or she needs a god. Some people make money to god. Some people believe in the god about whoom prophet told them. So, actually there was a concept of god. So basically, to tell them the true picture of ~~isha~~ god, prophet came. like who is actually God? is the God is from us? Is God is beyond us? what are the attributes of Gody? So, there were many questions related to the God. So prophet told the true picture of god why? because everyone needs a god by nature.
Secondly, (why there are many prophet?) There are many era's of timeline. There are many ages but here we'll discuss three age's. 1. Stone age (2) Industrial age (3) Modern Age.
In stone age, people lives in form of tribals. And every tribe needs a god. As we see the offsprings of Adam, (they all are prophet) then they went to differend part of world. All the tribes then needs a god. In all tribes to define picture of God, prophets were sent.

Scanned with CamScanner

Date

then the tribes lives in form of nation. Then prophets were sent to nations to guide 'em. (قوم) → nation exp:- اقوام and قوم

In stone age people weren't communicating so much they are actually at social distancing. So when Industrial age comes communication become much easy. So Allah sent last prophet Muhammad (PBUH). So In this way era change, time line changes and the but the prophet was there. Now we don't have prophet. But we have guidance from the book revealed to last prophet (PBUH). So, in this way Anthropologically, so we can say there's always reasons of prophets

Religious Dimension:-

The people know god. But the dont know the right form of god. prophets told them. But with passage of time they made some changings in the concept of god. we know that prophet Eissa always said god is one. But right after him, i.e what happened is that after some centuries the concept of god given by Hazrat Eissa is changed. God becomes three. So christianity introduced there. So to guide the people towards right concept of god, there's need of prophet.

Prophet came not only to guide for the concept of god but also send when the people changes the attribute of god. concept of shirk was introduced (people changes the attribute of god).

Allah never wants to misunderstand the concept of God. We can say almost at the end of many Aayah's Allah tells his attributes. (إن الله على كل شيء قدير) You must have crystal clear idea who is God? prophet were send cuz people change the concept & attributes of god. second reason is that when there is sharia (rules, laws given by creator to pass the life). What is halal, haram all this tells us the sharia. So as the prophet is no more but the sharia is there so prophet is not sent. prophet was sent when they changed the charia. There are approximately 1 lac 24 thousand prophets sent.

Religions in Arab just before prophet (PBUH)

jews deviated from sharia so there's need of prophet

polythiests deviated from orignal path, they changed the concept of god.

Agnostics (they worship, sun, rain, snakes) they changed the concept of god

So there's need of prophet Muhammad to tell them the right concept of god and sharia.

So an child used to spend his early life with a very mature life, so what does he learn? maturity or immaturity? obvio maturity. so he learned wisdom, maturity from him. Right after three years, his grand father died. So his uncle Hazrat Abu Talib used to take care of him. so from (11 or 10 year old to 19 years old) he became a shephard. so in his teenage he remain as shephard. So a shepherd what learned from the atmosphere around him? He will be strong physically because he spend his days and night in a very tough place. He learned patience. As a shepherd he learned leadership. Its hard to lead animals than humans.

He learned how to stay alone and to be happy. In isolation, how a person can be happy. when a man is alone near nature he created a spiritual connection with the nature, who created this sky? who created this insect? He learned about god. Actually at that time he was ad sharia of Ibrahim cuz his grandfather was ad sharia of Ibrahim. Now at the age of 21, his uncle gave him some material to trade. So, now the life of shephard is entirely changed to ~~shep~~ trader. As a shepharel he was alone, but now he has to talk with different people. He learned about the culture, behaivious, language of diff people.

In age of (20–25) he used to do trading. So he interact with diff type of people. In egypt when people come to trade they brought some naked women along with them. So He (PBUH) also looked this picture of behaviour of people. But still he saved himself. He didn't join any bad activity. before prophethood.

In the age of 25 he got married with Hazrat Khadijah (40 years old). There were 6 kids from Hazrat Khadijah. He was happy with his life. At age of 40 he was given prophethood. So at first he talked to Hazrat Khadijah. Hazrat Khadijah comfort him.

Hierarchy of preaching:-

① He gave the idea of god at first to his family - Hazrat Khadijah - Hazrat Ali (RA)

② He gave the ideo of god to Hazrad Abu Bakar (RA)

③ Then he gave teachings to all people who are first worthy Hazrat zaid bin Haris (RA).

④ Then he gave teachings to everyone.

So in a hierarchy he gave teachings.

Islamic states:

caliphate (خلافت، خلافہ، خلیفہ، خلفاء)

In political aspect, leader of muslim (we all are khalifah and our leader is also khalifah).

خلافت (Islamic state)
Territory

Islamic state begins from the start of Islam. (To implement) sharia we need territory, for exp. In iron age, in the time period of salman (RA) there is a concept of state.

What was the clash of Hazrat Mousa and pharoh.?
Pharoh claims that he is God. while Mousa says that Allah is alone. and pharoh kills girls and remains boy. So Mousa went to koh-e-toor. He wanted to establish a state to implement sharia. He wanted a state to implement all rules defined by Allah.

It means the concept of Islamic state is from beginning. It means Allah gave the political idea of state from begining.

Islamic state is a type of government in which the primary basis for government is Islam.

Khilafat came into being after demise of Holy Prophet (PBUH).

This Khilafat is subject to the sovereignty of Allah (SWT).

→ It refers to the "Islamic" government established by Hazrat Muhammad (PBUH) in 622 CE under the Misq-e-Madina.

The concept of sovereignty in Islamic state:-

" Indeed! The earth is Allah (SWT)'s. He gives it for an inheritance to whoom he will and indeed! The sequel is for those who keep their duty. (Untohim)."

State belongs to Allah, so the system must belongs to Allah's wish.

Allah (SWT) for a noble task. Allah ordained, and rephrase our responsibilities. and then he entitled us a nation as a Ummah (Ummad-e-wasl) And it is thus that we appointed you to be the community of the middle way, so that you might be witnesses before all mankind and the messenger might be witness before you. (Holy Quran 2:143).

Ummat-e-wast:- means central as significant
↓ nation ↓ centre (central nation or important nation).

When we want to signify someone we must gave him central position. like in the conference the chief guest sits in the centre.

why we are important? why our ummat is important: _____ (state here the ayah (2:143))

Basically It (aayah) is related to the day of Judgement. Allah will ask on the day of Judgement the ummat-e-wast to whoom you give guidance. Then we will tell Allah that we given guidance to this person with my silence to this person with my actions. so our actions, our tallkings are guiding other people. On the basis of this you are given free will and you are guided as well so do you guide other people as well? so Hazrat Muhammad will witness that yess this this person guides other

"You are the best nation among all the nations"

why cuz we are created for other people. cuz in our nation there's no prophet. we guide other people

which type of guidance (Al Ma'rouf) and (Munkir) (المعروف، منکر) these are not halal or haram. It doesn't mean that you would say to everyone this is haram, this is halal. DO this and dont this. This isn't our attitude. By our ethical values, by our communication, by our actions, we will guide other people that this maroof and this is munkir.

المعروف یہ وہ اچھائی جو کہ سب کو پتا ہے۔
منکر ایسی برائی جس کو سب برا کہیں۔

We as a Ummat-e-wast has duty to teach other what is khair and what is shr. Eventually we will witness other people and Muhammad (PBUH) will witness us. So it means we are answerable for our deeds.

As we know In islamic state everyone is responsible as a ummat-e-wast and as a vice-gerent. and Islamic state means a place where we all people will freely practice and worship Allah. If we analyse ummat-e-wast, all the teachings of Al maroof and munkir will be delivered to people. So in this way they are linked with Islamic state.

Caliph (خلیفہ):-

The caliph is temporal ruler of state and the defender of the faith. It was continued by Khulafai arbaa the rightly guided (راشدین) caliphs (632–661 C E). It represented the political unity of ummah (Ummat-e-wast, Al-Baqrah 143).

The caliph was often known as امیر المومنین
The prophet established his ecpital in medina
Khulafai arbaa also followed him.
To fulfill our responsibilities of ummat-e-wast
do we need any territory or not?
Or do we need any Islamic state or not?
For the progression of Islam in begining, Territo
was also established. So in the top priorities of
rulers it is also included to expand the territory
Islam. Then the territory got divided. And differe
ruler began to rule in different territories.
Do Hazrat Muhammed fight a ghazwa for
piece of land? no never. But in defensive
mode the territories are scattered. **In islam territory is not the need.** If teritlory is not the need then what is the need? Now, a days if we have religious freedom, do we need a territory? no.
If we have a religious freedom, we dont need
territory to guide other people. we will freely
communicate and deliever our message to
other people.

Hazrat Abu Bakar al-Siddique

The prophet didn't nominate any one to suceed him but he gave indication that Hazrat Abu Bakr would be the khalifa.

Hazrat Abu Bakr become khalifa by the consultancy of people (democracy concept).

There were some points that why Hazrat Abu Bakr? So later Hazrat Abu Bakr actions proves that the decision to became him the khalifa is the best decision.

When once Hazrat Muhammad (PBUH) was so ill at that time Hazrat Muhammad (PBUH) nominated Hazrat Abu Bakr (RA) to make himself Imaam and offer salah. So from this we can derived that he can lead the muslims actually. His life is extraordinary. He was always with Hazrat Muhammad (PBUH) Even the name of Hazrat Abu Bakr is mentioned in Quran.

"Dont be sad Allah is with (both of) you"

So, Hazrat Abu Bakr has extra ordinary character.

His name of Abdullah and Abu Bakr was his ... . He was the first person to embrace islam.

He earned title of "Al-siddiq" from Holy prophet Muhammad (PBUH) arranged in the form of a Book by Abu Bakar.

Ummayad caliphat.

Ummayad overall they felt proud that they are Arabi and the other people are ajmi. As we know in the time period of Hazrat Umar (RA) the teritory expanded and many ajmi people also came. So Ummayad began to discriminate b/w the Arab people and the Ajam people. So that's the reason they declined. and the second reason is the incident (tragedy of Qa Karbala) what they do to Ahl-e-bait.

Abbasid caliphat:

Fatimid caliphat:- they raised and combine themselves on the basis of karbala incident./ tragidity.

The different dynasties were overthrown by different people like europeons, christans and many other people.

Islamic World View

When we see islamic world view so it has two dimension ① how world see's toward islam ② how islam see's toward world.

how world see's toward islam: what people think about Islam? when a non-believer see's toward any religion, he didn't look at the religious scriptures. but he looks towards the follower's of that religion. As we dont know about hinduism, we think that hinduism calls people among polytheism. But actually its not. happened. But hinduism is a religion of monotheism they do not worship idol, they do worship one god. so, but how we see's towards them by the followers. So, what we can say is that when we look at any religion we should see religion rather than the followers. So that should be the principal. and world thinks of Islam as a very pathetic and a very redicolous religion. specially after some incidents like Afghan-Taleban, Nine-Eleven (911). incident related to specific incident and people who pretends that islam is like that. So as a whole we think that islam is not peaceful. It is very severe problem. when the followers will see how islam see's towards world then this problem will be solved. It will be solved by our imagination, by our ideas.

how islam see's towards world: islam talks about both دنیا and آخرت. It's wrong. Basically its one thing. we should know that this world is directly linked to the Aakhira. they are not the two stories with two characters. Its only one story with one character's of our's. whatever we do in this world has a very strong relation with the hereafter.

islamic world view:-

"A metaphysical survey of the visible as well as the invisible worlds including the perspective of life as a whole".

Islamic world view encompasses the issues of universe, creator, prophethood, society, man and hereafter. ~~its the mixture of~~ this world is a mixture of visible and invisible things. we cannot say that we are living in a visible world then we will go to the invisible. both are one thing.

like on the whole every thing has a link with visible and invisible world. Both are linked together.

→ we cannot say what our culture is our world view. coz our culture is different from Islam. If your dress code is not according to islam ~~is~~ but according to culture. and there's clash b/w culture and islam. So it means you are not following islam rather you are following culture.

But fortunately, in pakistan culture and islam are not much different. so we can follow the culture.

It is not world view that is formed by amalgamation or historical concoction of various cultural values. Rather, it is a well established framework, derived from the revelation and interpreted by Muslims scholars throughout Islamic history.

secularist	Islamic
secularism	Islamic
Man-made system	Allah's system
unusual things → nature (earthquake by landing of plates etc)	creation of Allah
values change → changes his values with his experiences.	values remain same. ↳ he knows from start that this is my limit, I can't ~~do this this~~ I can't eat this this....
No politics in religion	programme for islamic government. ↳ ruler is khalifah.
no continuity of life after death.	life after death
ownership and objective of resources.	Absolute ownership for Allah (Man has right to benefit from these resources - not totally free, mortal limits, general frame work. Accountable for it use.
resources are from Allah, and humans are just taking benefits from the resource. complete ownership is for Allah.
